

**L D College of Engineering, Ahmedabad**

**Department of Information Technology**

**Academic Year :- 2021-22**

**GTU B.E. 7th Semester**

**3170001- Summer Internship**

**Subject / Topic : Python(Django)**

## Day 9:-

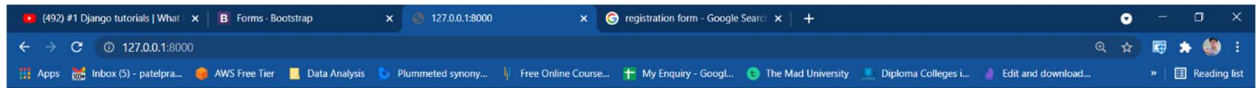

### What we have learnt?

- This session was also completely based on practical. In this session we learned how to get data from html form and print them in console as well as transfer them to another html page using “context” variable which is passed through render() which used to render template.
- Then we learned a bit about `{% csrf_token %}`. The **CSRF token** only ensures that only forms that have originated from trusted domains can be used to POST data back.
- Then lecturer made basic form with some fields and showed us how's that working in real life.

The screenshot shows a web browser window with a single tab titled 'Document'. The address bar displays '127.0.0.1:8000'. The browser's taskbar at the bottom shows various open applications including 'Apps', 'Inbox (5) - patelpra...', 'AWS Free Tier', 'Data Analysis', 'Plummeted synony...', 'Free Online Course...', 'My Enquiry - Googl...', 'The Mad University', 'Diploma Colleges L...', 'Edit and download...', and 'Reading list'. The main content of the browser is a 'Registration Form' with the following fields:

- First name:** Text input with placeholder 'First name'.
- Last name:** Text input with placeholder 'Otto'.
- Email:** Text input with placeholder '@ Enter Email'.
- Gender:** Dropdown menu with 'Choose...' selected.
- Contact:** Text input with placeholder 'Phone Number'.
- Address:** Text input with placeholder '1234 Main St'.
- Zip:** Text input with placeholder 'Zip'.
- College Name:** Text input with placeholder 'College Name'.
- Department:** Dropdown menu with 'Choose...' selected.

A blue 'Submit form' button is located at the bottom left of the form.

Name : Prakhar Patel
